<b>Contacts and Links</b>	NOTE: Please ensure you have the following is submitted to ( <a href="mailto:COVIDresults@msjmc.org">COVIDresults@msjmc.org</a> ) - facilitate your appointment 268 484 2788/123
<b>Special Information</b>	Payment must before be made at least 5 - 7 working days prior to the scheduled test and a completed PCR test Request Form (including travel details). Notification is communicated by email approximately 48 hours after being tested.

- Sandals and Beaches Resorts has announced that it will be offering complimentary in-resort PCR Covid-19 testing for their guests through March 31, 2021. Upon arrival at their resort, guests will be assisted in making all necessary arrangements to schedule an on-site COVID-19 test. This will be done at least 72 hours before their departure, with test results made available within 24 hours.

For Full details and FAQs, please visit: <https://www.canada.ca/en/transport-canada/news/2020/12/pre-departure-covid-19-testing-and-negative-results-for-air-travellers-coming-to-canada.html>

Effective January 7, 2021, at 12:01 a.m. EST, all air passengers five years of age or older will be required to test negative for COVID-19 before travelling from another country to Canada. Documentation of a negative laboratory test result must be presented to the airline prior to boarding a flight to Canada. The test must be performed using a COVID-19 molecular polymerase chain reaction (or PCR) test and must be taken within 72 hours prior to the traveller's scheduled departure to Canada. Anyone who receives a negative test result and is authorized to enter Canada must still complete the full, mandatory 14-day quarantine. Passengers without a negative test will be denied boarding. If travelers are arriving from a country where PCR testing is unavailable, they will be required to report to a designated Public Health Agency of Canada quarantine facility for the duration of the mandatory 14-day quarantine. This is in addition to the mandatory 14-day quarantine. Testing fees are approximate and are subject to change without notice.

Please note that TravelBrands cannot guarantee the availability of appointments at each facility, or the timing of PCR test result delivery. It is the sole responsibility of the traveller to ensure that they – and any child accompanying them over the age of 5 – have valid proof of their negative PCR test results, taken within 72 hours of departure.

For Full details and FAQs, please visit: <https://www.canada.ca/en/transport-canada/news/2020/12/pre-departure-covid-19-testing-and-negative-results-for-air-travellers-coming-to-canada.html>

Effective January 7, 2021, at 12:01 a.m. EST, all air passengers five years of age or older will be required to test negative for COVID-19 before travelling from another country to Canada. Documentation of a negative laboratory test result must be presented to the airline prior to boarding a flight to Canada. The test must be performed using a COVID-19 molecular polymerase chain reaction (or PCR) test and must be taken within 72 hours prior to the traveller's scheduled departure to Canada. Anyone who receives a negative test result and is authorized to enter Canada must still complete the full, mandatory 14-day quarantine. Passengers without a negative test will be denied boarding. If travellers are arriving from a country where PCR testing is unavailable, they will be required to report to a designated Public Health Agency of Canada quarantine facility for the duration of the mandatory 14-day quarantine. This is in addition to the mandatory 14-day quarantine. Testing fees are approximate and are subject to change without notice.

Please note that TravelBrands cannot guarantee the availability of appointments at each facility, or the timing of PCR test result delivery. It is the sole responsibility of the traveller to ensure that they – and any child accompanying them over the age of 5 – have valid proof of their negative PCR test results, taken within 72 hours of departure.

Documentation of a negative laboratory test result must be presented to the airline prior to boarding a flight to Canada. The test must be performed using a COVID-19 molecular polymerase chain reaction (or PCR) test and must be taken within 72 hours prior to the traveller's scheduled departure to Canada. Anyone who receives a negative test result and is authorized to enter Canada must still complete the full, mandatory 14-day quarantine. Passengers without a negative test will be denied boarding. If travelers are arriving from a country where PCR testing is unavailable, they will be required to report to a designated Public Health Agency of Canada quarantine facility for the duration of the mandatory 14-day quarantine. This is in addition to the mandatory 14-day quarantine. Testing fees are approximate and are subject to change without notice.

Please note that TravelBrands cannot guarantee the availability of appointments at each facility, or the timing of PCR test result delivery. It is the sole responsibility of the traveller to ensure that they – and any child accompanying them over the age of 5 – have valid proof of their negative PCR test results, taken within 72 hours of departure.
